

Broadspectrum, in partnership with MTC, is to manage the Parklea Centre in Australia under a €57 million per year contract

- Broadspectrum and MTC will maintain the center's facilities and manage inmate rehabilitation programs.
- The contract is for seven years with the possibility of a five-year extension.
- The Australian subsidiary is currently delivering other contracts with the Australian government.

Madrid, 16/11/2018 – Broadspectrum, a subsidiary of Ferrovial Services, acting in consortium 50% with MTC, has been chosen to deliver management and security services at the Parklea Internment Centre in Australia. The seven-year contract, which has the option of a five-year extension, is worth AUD 90 million (over €57 million) annually.

The contract includes services such as transportation, facility maintenance and management, training and job-ready programs, and healthcare services, to be provided in partnership with St Vincent's Healthcare. The consortium plans to provide skill-building workshops for inmates and to improve their employability, with a strong focus on inmate support.

The companies will also work with the CSNSW, a division of the Australian Department of Justice, to manage a new maximum-security unit, sporting facilities and visitor centre for inmates and their families.

The contract comes into force on 1 April 2019. Until then, Broadspectrum and MTC will work closely with the current service provider and CSNSW to facilitate an orderly handover.

About Ferrovial

Ferrovial is one of the world's leading infrastructure operators and municipal services companies, committed to developing sustainable solutions. The company has 96,000 employees and operates in over 20 countries. Its main business areas are: Toll Roads, Airports, Construction and Services.
