## Webber Awarded \$70M TxDOT FM 1960 Expansion Project

**HOUSTON – September 28, 2020** - Webber, LLC was awarded the FM 1960 rehabilitation and expansion project in Harris County by the Texas Department of Transportation (TxDOT). The project, located in North Houston, is worth about \$70 million.

The contract includes widening FM 1960, a principal arterial road, from four to six lanes, with a total project length of 2.84 miles. It also includes construction of a four-lane main lane overpass bridge over West Lake Houston Parkway. The project limits run from east of Twigsworth Lane to West of the San Jacinto Bridge and includes about 170,000 square yards of concrete pavement, 165,000 square feet of bridge deck and 2.59 million pounds of steel tub girders.

“Houston is Webber’s hometown and we are excited to help alleviate traffic congestion while better connecting the North Houston area,” said Josh Goyne, president of Webber’s Heavy Civil Division.

The project will begin in February 2021 with substantial completion in late 2023.

The expansion and rehabilitation of FM 1960 is the latest projected awarded contract to Ferrovial’s American subsidiary, Webber. In 2020, Webber was also awarded the upgrade of IH 35 in Laredo, Texas, worth \$115 million, and the construction of the SL12 highway in Dallas worth \$301 million, which strengthens the Ferrovial’s presence in the United States, its main market by revenues.

### About Webber, LLC

Founded in 1963, Webber is a leading heavy civil and waterworks construction company and material producer dedicated to safely providing intelligent solutions to its clients and community. As a wholly owned subsidiary of Ferrovial S.A., an international company based in Madrid, Spain, Webber has access to a global network of skilled engineers, best-in-class technology and vast resources. Webber is headquartered in Houston, Texas, with regional offices in South, North and Central Texas, as well as Fairfax, Virginia and Atlanta, Georgia. Webber was selected by Engineering News-Record as 2018 Contractor of the Year for the Texas/Louisiana region and has been named a National AGC safety award winner for the past seven consecutive years.
